Decision support prototype DERSI for failure
management in nuclear power plants is
under development. It is a control room tool
for operator or analysis tool for expert, Since
its establishment in Hong Kong in 1998, the
international Intelligent Data Engineering and
Automated Learning (IDEAL) conference has
become a reference for researchers in both
theoretical and practical, This book constitutes the
refereed proceedings of the 16th
International Conference on Intelligent Data
Engineering and Automated Learning, IDEAL
2015, held in Wroclaw, Poland, in October
2015. The 64 revised full papers presented
were carefully reviewed and selected from
127 submissions. These, This book

This book constitutes the refereed proceedings of the 17 International Conference on Intelligent Data Engineering and Automated Learning, IDEAL 2016, held in Yangzhou, China, in October 2016., An intelligent maintenance system (IMS) is a system that utilizes the collected data from the machinery in order to predict and prevent the potential failures in them. The occurrence of failures in the machinery can be costly and even catastrophic. In order to avoid them, there needs to be a system which analyzes the behavior of the machine and provides alarms and instructions for preventive ...,

Intelligent Data Analysis invites the submission of research and application articles that comply with the aims and scope of the journal. In particular, articles that discuss development of new AI architectures, methodologies, and techniques and their applications to the field of data analysis are preferred.
