Finding out more about reflection Have a

look at Reflective Practice, a learning object

that introduces you to the principles and

processes, A reflecting telescope (also called

a reflector) is a telescope that uses a single

or a combination of curved mirrors that

reflect light and form an image.The reflecting

telescope was invented in the 17th century,

by Isaac Newton, as an alternative to the

refracting telescope which, at that time, was

a design that suffered from severe chromatic
