ENCYCLOPEDIA OF ASTRONOMY AND

STROPHYSICS Star Clusters

Even a small telescope shows obvious local concentrations of stars scattered around the sky.

These star clusters are, The Importance of

Star Clusters 1) All stars in a cluster lie at about the same distance from the Earth. 2)

All the stars in the cluster were formed at about the,

StarCluster - (http://star.mit.edu/cluster) ... 1.1.8 Copy Data

To and From a Cluster StarCluster allows you to easily copy data to and from a running

cluster without ..., A key concept in astronomy, from stars to star clusters to

galaxies to galaxy clusters ... gas to a cluster of galaxies to a star in equilibrium!!E "=&K

"&IU ", Star Clusters and Stellar Dynamics

(This file has a bunch of pictures deleted, in order to save space) ... (star clusters); if stars

are mainly moving in the, Star clusters are groups of stars which, astronomers believe,

were born together at roughly the same time from the same cloud of interstellar gas. HR

diagrams are, Star clusters are groups of stars. Two types of star clusters can be distinguished: globular clusters are tight groups of hundreds or thousands of very old stars which are gravitationally bound, while open clusters, more loosely clustered groups of stars, generally contain fewer than a few hundred members, and are often very young., Star cluster - Dynamics of star clusters: ... there are many conspicuous groups and clusters of stars that contain tens to thousands of members., PDF | We present comprehensive cluster membership and g'r photometry of the ... A new look at the old star cluster NGC6791. ... For the 4739 stars in the cluster, ..., Star clusters Star clusters are groups of stars which are gravitationally bound. Two distinct types of star cluster can be distinguished: globular clusters are tight groups of hundreds of thousands of very old, Star Clusters. A star cluster is a group of stars that share a common origin and are gravitationally bound for some length of time. They are particularly useful to astronomers as they provide a way to study and model stellar evolution and ages., Lab 10: Determining the Ages of Star Clusters

Introduction As we have seen, observing the individual stars in a cluster can give us information about the cluster as a whole., highly condensed clusters of stars with central subgroups of massive stars. 1. Introduction Star clusters are of fundamental interest for many reasons, ..., Such stars are known as "blue stragglers," because they appear to "straggle" behind the natural evolution of most stars in a star cluster: ... PDF, Open Star Clusters A Guide for the Open Star Cluster Observing Club Astronomical League. Open Star Clusters ... Since open clusters are made of stars, ...
